Fashion Notes

Striped ribbons are especially smart for jaunty street hats.

Pelt Toques trimmed with flowers are much seen on the streets of Paris.

The palm leaf design is a new venture in rich beaded bags.

Word comes from the Georgette shops in Paris that seal brown is being emphasized for millinery.

Venice lace is having a season of popularity fully equaling any of its successes in several years past.

The originality and chic of many of the new hats depends on the pose of the plume.

Little bright velvet bows, combed at the ends, to finish one's collar, should be held in the middle by a medallion of real Irish.

Leading American modistes say the New Regis Corset models are specifically calculated to build the figure along the graceful lines of prevailing fashion.

Notes from Paris and leading American fashion centers indicate a popular demand for heavier, velvet and velour hats for mid-winter millinery.

In Selecting Any Garment,

any Corset, the points to be considered are: Is it stylish? Is it comfortable? Is it healthful? Is it durable? Is it worth the money?

We have been selling corsets for more than 40 years. We have been studying corsets, fitting corsets, designing corsets and when we sell a Regis corset to a woman we feel sure of a satisfied customer. Corsets which carry the name Regis, are intensely practical, no idle dreams or passing fancy, but are the result of more than a quarter of a century's study and experience in producing garments that improve and beautify the human form.

In wearing a Regis you are assured of more style, more comfort, better health and greater durability than in any other make.

There is a Regis for every figure and a price for every purse.

Regis Corsets, \$1.00 to \$10.00, and all prices in between.

To attract keenest attention to the Regis for Christmas gifts, we will continue to sell this week, those magnificent

\$2.00 Regis Corsets for just half, **\$1.00** for cash, none to dealers. One to a buyer for half, **\$1.00**.
